

# A CLOSER LOOK AT THE EVIDENCE

by Richard & Tina Kleiss

Over 70% of churched youth walk away from their faith in the first year of college. WHY? Because they do not understand how the Bible is relevant to the world around them, nor do they know the evidence that makes the Bible the most credible book on Earth.

This book offers awesome, easy to read and understand, evidence, primarily scientific, for the *existence of a Creator*, for the *reliability of the Holy Bible*, and for the *trustworthiness of Christianity*. Arranged in an enjoyable daily devotional format, each day provides yet another reason to trust God's Word. It contains 408 pages of unique and fascinating evidence from 26 subject areas researched from over 70 expert sources.

These are the subject areas:

Anatomy	Chemistry	History
Anthropology	Common Sense	Language
Archaeology	Comparing Religions	Mathematics
Astronomy	Creation Foundation	Microbiology
Biblical Accuracy	Earth's Ecology	Physics
Biblical Uniqueness	Fossil Record	Prophecy
Biology	Genetics	Psychology
Botany	Geology	Worldwide Flood
Changed Nature	Great Scientists
