# EVIDENCE FOR BIBLICAL RELIABILITY

WITH WEB ARTICLES

The Bible gives us many guidelines on how we ought to live, but can the Bible be trusted as a relevant guide to today's times? Is there evidence to support the truth of the Bible? The following article, compiled from several sources, will show evidences for the truth of the Bible, show how Bible teachings are relevant to today's times and encourage faith in God and His Word. See listed web sites, web articles and books for more information.

Those who argue that the Bible cannot be trusted, speak largely on the basis of unjustified assumptions, bias, and/or simple ignorance of the facts. For those who are open-minded, the evidence is more than sufficient to establish belief. Many of the best legal minds throughout history have concluded that the evidence for the historic truthfulness of Scripture is beyond reasonable doubt. They have accepted the New Testament as factual history on the grounds of strict legal evidence alone.

Years of intense study has taught me that all original scripture in the Bible was inspired by God and the Bible has been shown to be trustworthy. Claims of divine inspiration are stated over 3000 times, in various ways, in the Bible. To my knowledge, other than for a few copying and translation errors from the original version, no real mistake has ever been demonstrated in the Bible: in science, in history, or in any other subject. Also to my knowledge, other than for a few copying and translation errors from the original version, not one statement in the Bible has ever been disproved by any real facts of science or history. True science and history have always confirmed the Bible.

To shape your acceptance of the Bible, study the <u>SHAPES</u> of Biblical Reliability which are: <u>Science</u>, <u>History</u>, <u>Archaeology</u>, <u>Prophecy</u>, <u>Epistles/Manuscript preservation and <u>Structure</u> & Statistics. I have researched several web sites and found some of the best and most concise articles which demonstrate how reliable the Bible truly is. Some are brief while others are much more detailed. Use these articles to see how Christianity is very unique and the most logical religion, and that the Holy Bible is by far the most reliable religious book. Once you read these articles, you will realize that there is no excuse for not believing in the existence of God, the truth of Jesus Christ, and the reliability of the Bible.</u>

#### **EVIDENCE FROM SCIENCE**

The bible is the only ancient book with documented medical prevision and scientific foreknowledge. Although Moses was well educated in Egyptian science, he did not record in the Bible any of the "Now-known Dangerous" ancient Egyptian medical practices. Moses recorded only sound medical practices which were not understood until recently. Several places in the Bible we find scientifically accurate ideas about the physical universe which scientists did not discover until recent times.

Modern scientific evidence supports the creation account in the Bible. All life, even a single cell, is so complex, so organized and so well designed that it is obvious life had to have been created instead of just have happened by chance. Evidence indicates that all organisms suddenly appeared completely formed and reproduced only after their own kind. Evidence does not support any organism evolving from a different kind of organism. There are many large complicated systems in nature and several very unique creatures which could not function at all if they were not complete. Therefore these systems and creatures had to be complete from the very beginning instead of having slowly evolved, piece by piece, by trial and error over long periods of time. To many people the special design of all organisms demonstrates the awesome intelligence, power and creativity of God. The Human Genome Project indicates that all people descended from one common male and one common female a few thousand years ago. Also a worldwide flood is the best explanation for massive deposition of rock layers and fossils all around the world.

Accurate, confirmable information, written in simplistic terms so most common people can understand, is found throughout the Bible on topics as genealogy, archaeology, geology, anatomy, epidemiology, biology, and many others. From our studies concerning the fossil record, embryology, comparative anatomy, and the indescribable complexity and organization of living creatures, we see that each one testifies to the creative genius of God that passes all understanding. The Bible tells us (in Romans 1:20) that no one has an excuse for not believing that God is the Master and Creator of all things, because from the things that God has created, we can easily see evidence of His existence, of His divine power, of His infinite intelligence, and of His divinity.

## **EVIDENCE FROM HISTORY**

The worldwide flood is a fact of the past as revealed by archaeology, geology, and the Bible. Archaeologists have found flood stories in the form of inscriptions made on monuments and tablets. Today nearly all cultures of different people groups around the world have similar historical stories of an all-destroying flood with only a few people saved on a floating vessel. Such common historical accounts suggest a single common society before its later dispersion as recorded in Genesis. The presence of fossils and sedimentary rock layers around the world are consistent with the effects of a worldwide flood. Every ancient civilization seems to have appeared suddenly (most beginning in an advanced state), approximately 5,000 years ago, about the same time the Bible states that the worldwide flood ended and people were spread around the world. These are indications of true history recorded in the Bible.

As for historic accuracy, names of individuals, families, peoples, and tribes listed in the Table of Nations in Chapters 10 & 11 of Genesis have been found to be accurate. The Bible's genealogical record traces the names of real people from Adam to Jesus Christ giving a continuous historical record from the first man to the present era to show that the stories of Genesis are true and not just symbolic made-up stories. There are several secular genealogical records from Europe which can trace their lineage back to Noah and his sons. The life spans of many of the early patriarchs are also recorded in the Bible to record how long it has been since the creation of Adam. Many of the events, people, places, and customs in the New Testament are confirmed by secular historians who were almost contemporaries with New Testament writers. Also early A.D. secular, non-Christian sources confirm the life of Jesus, His miracles, and His death by crucifixion. Jesus was a true person in real history. In the late 1800's, Sir William Ramsay - a scholar and skeptic of the authenticity of the Book of Acts (written by Luke - a non-Jewish doctor in the 1st century), found through archaeological research that every single reference which could be verified was totally accurate.

### EVIDENCE FROM ARCHAEOLOGY

After over a century of detailed, scientific archaeological excavations, no discovery has ever disproved a Biblical reference. Many archaeological findings have been made which confirm in clear outline or exact detail thousands of historical statements in the Bible, as specific places, persons and events. In general, Biblical history, from the time of Abraham onward, has been adequately supported by archaeological study. It has been said that every alleged error or contradiction in Scripture has been proven a truthful statement once sufficient archaeological or other information has been discovered.

#### **EVIDENCE FROM PROPHECY**

There are also remarkable evidences of hundreds of Bible prophecies having been fulfilled, specifically and meticulously, often long after the prophetic writer has passed away. The Bible records predictions of events that could not be known or predicted by chance or common sense. Psalm 22, written about 1000 BC, is an amazing prophecy that describes the crucifixion of Christ. It describes in graphic detail the sufferings of Christ long before death by crucifixion was even known or practiced by the Romans or Jews.

Approximately 27% of the entire Bible contains prophetic material. The recently discovered Dead Sea Scrolls, written more than a century before Jesus was born, contain hundreds of predictions of Jesus' birth, life and death which all came true. Totally accurate prediction of the future is the domain of the Bible exclusively. The Bible is like no other book in prophecy fulfillment. Through fulfilled prophecy, God has given sufficient evidence of His existence and of the divine inspiration of the Scriptures.

### EVIDENCE FROM EPISTLE / MANUSCRIPT PRESERVATION

As for epistle/manuscript preservation, the Bible text is far more accurately preserved than any other text of ancient history. Although we do not have any original text, manuscript copies of the Bible are far more numerous, far more accurate, and written far closer to the original manuscripts than any other comparable writings from the ancient world. The Jews preserved Scripture as no other manuscript has ever been preserved. They meticuluosly kept track of every letter, syllable, word, sentence, and paragraph by counting each separate division, on every page, and comparing all of the tallies with the original before allowing the page to be put into use. Variations between manuscripts have occurred but most are spelling and word order changes or relationships between nouns and definite articles. No essential Christian belief is affected by any variation in the Bible manuscripts.

The 1947 discovery of the Dead Sea Scrolls demonstrated unequivocally the fact that the Jews were faithful in their transcription of Biblical manuscripts. God gives us overwhelming evidence (which archaeology continues to verify) that Scripture has been accurately maintained, reproduced, and passed down through the ages. Only the Bible can make this claim.

# **EVIDENCE FROM STRUCTURE & STATISTICS**

The Bible is unparalleled in its structure. The Bible is uniquely compiled of 66 different books which compliment each other as one cohesive book. Despite being written by more than 40 authors from over 19 different lifestyles from three different continents (Africa, Asia and Europe) in three different languages (Hebrew, Aramaic and Greek) over more than 1500 years, throughout the 66 books of the Bible it is consistent on its teachings on many important issues and controversial subjects. The scriptures, when properly understood, will not contradict themselves. Usually books written by men in ancient times *only* recorded positive attributes of their leaders and battles they won, but not the Bible. God showed absolute honesty by recording the flaws and failures of the leaders and heros of the faith.

Most of the foundational ideas upon which most societies are built find their beginnings in Genesis - the first book in the Bible. Genesis gives the beginnings of the universe, life, man, plant and animal "kinds", Sabbath (the 7 day week), death, marriage, family, language, cities, literature, art, sin, redemption, and sacrifice. Also Biblical history, beginning with the creation week, coincides very nicely with evidences, not speculations, of our world's ancient history when viewed from a Biblical perspective.

The Bible is an accurate account of our earliest history, God's laws and instructions for us to live by, God's expectations of us, and His promises for us. The Bible teaches about Jesus's life, His sacrifice and death on the cross for our sins, His bodily resurrection and ascension into heaven and His promise to return for His believers.

The Bible is God's instruction manual giving us <u>Basic Instructions Before Leaving Earth</u> such as accurate and ageless guidelines on how to live healthy, joyful, successful lives. It wisely teaches us how to handle many problems we regularly face in our lives such as financial, health, family, social, emotional, and relationship problems. The Bible provides God's detailed instructions for how we are to deal successfully with the practical affairs of everyday life and teaches skillful living in the multiple aspect of everyday life. It touches upon every facet of human relationships such as our relationships with God, parents, children, neighbors, and government and teaches how to prevent and correct ungodly lifestyles.

#### EVIDENCE FOR CHRISTIANITY

In many ways the Bible shows how unique and reliable is the Christian faith versus all other Religions. Other religions are subjective religions based on feelings, and ethical and religious opinions of men rather than historical facts. But Christianity is a historical faith based on objective facts and historical records which are subject to examination by the ordinary criteria of objective investigation. The Bible is a reliable history book unlike writings from other world religions which make no historical references or make up their history and even have contradictory historical accounts. The Bible has a unique and reasonable solution to the origins problem - "In the beginning, God created ...". Other religious books reveal ignorance on the account of the creation of all things from nothing. Christians worship a "living" Lord. All other religious founders or leaders are dead. Christ's bodily resurrection from the dead was the final and greatest proof of His absolute uniqueness and is documented in both Biblical and secular history with strong evidence to support its truth.

# **EVIDENCE FOR SUFFERING**

The Bible even teaches much on the subject of suffering, especially in the book of Job. Many people in the Bible endure pain, grief, loss, hardship, death of loved ones, etc. The Bible teaches that sin is the ultimate cause of suffering and death. God's original creation was as God intended life to be for us, without any suffering, but mankind chose to disobey God and the result was a curse on all of God's creation. We have all had to suffer from this curse, some much more than others. We are all sinners and fall far short of God's standards of perfection. No one deserves God's grace, but the Bible teaches that there is hope for those who follow Christ. Although we will suffer in this present life, there will be no more suffering or death in God's final kingdom.

## **EVIDENCE FROM CHANGED LIVES**

When Jesus died His disciples, confused and afraid for their lives, went into hiding. But Christ's resurrection from the dead convinced them Christ was who He claimed to be and their lives were instantly and wholly transformed. They became bold in their doubtless faith and they dedicated the rest of their lives to proclaiming the truth of Jesus, His resurrection, and His Kingdom. They consequently suffered severe persecution and later willingly died for Jesus, their resurrected Lord (see the book of Acts in the Bible). Multitudes of people, past and present, have found from personal experience that the Bible's promises are true, its counsel is sound, its commands and restrictions are wise, and its wonderful message of salvation meets every need for both time and eternity. Most true Christians can testify to the changes God has made in their life and His answers to their prayers and their wonderful personal relationship with their Lord - Jesus.

We all have "free will" to decide what we want to believe. Noone can force anyone to truly believe anything. We all have to decide whether we want to believe in God and the Bible or not. If you still do not believe or you have doubts about the truth of the Bible, or of God, or of Jesus, or of these many evidences which support the Bible, I challenge you to research for yourself.

See "Labels" list for topics and "Blog Archive" for article list.

#### **BOOKS**

- <u>Revised and Expanded The Bible Has the Answer</u>, by Henry M. Morris & Martin E. Clark from **Answers In Genesis**. (about \$12) Answers 155 <u>questions</u> on topics as God, Jesus, the Bible, Christianity, non-Christian believers, the Bible & science, creation & evolution, the ancient world, earth history, doctrines, spiritual problems, spiritual world, occultism, current social problems, & the future.
- <u>Answers to Tough Questions skeptics ask about the Christian faith</u>, by Josh McDowell and Don Stewart. (about \$6 ) Answers 65 <u>questions</u> on God, Jesus, Bible, Christianity, Bible difficulties, Cain's wife, Jonah & the whale, Bible and evolution?, Bible at variance with science?, Dinosaurs & extinct animals biblical?, Genesis days, & animals on the ark
- Many Infallible Proofs Evidences for the Christian Faith, by Henry M. Morris with Henry M. Morris III from Answers In Genesis (about \$13) One of the most comprehensive presentations of the practical evidences of the infallibility of the Bible and the truth of Christianity. Topics on the deity of Christ, fulfilled prophecy, existence of God, the uniqueness of Christianity, the authenticity of the New & Old Testaments, the birth, life, death & resurrection of Christ, the Bible & science, Scientific fallacies of evolution, Creation and the flood, the Bible & ancient history, etc.
- <u>The Bible Answer Book</u>, by Hank Hanegraaff the Bible Answer Man. (about \$15) Answers 81 key Biblical <u>questions</u> on credibility of Christ, non-Christian religions, and limits of God, who made God?, what is Truth?, what distinguishes Christianity from other religions?, how do we know that the Bible is divine?, is Evolution a Myth?, explanations for the existence of our universe, Archaeopteryx, is Evolution racist?, and Theistic Evolution.
- A Closer Look at the Evidence, by Richard L. & Christina E. Kleiss from Search for the Truth Publications. (about \$12) This book offers awesome, easy to read and understand, evidence, primarily scientific, for the existence of a Creator, for the reliability of the Holy Bible, and for the trustworthiness of Christianity. It contains 408 pages of unique and fascinating evidence from 26 subject areas researched from over 70 expert sources. Read 366 daily devotional style Evidence articles on topics as Anatomy, Anthropology, Archaeology, Astronomy, Biblical Accuracy, Biblical Uniqueness, Biology, Botany, Chemistry, Creation Foundation, Earth's Ecology, Fossil Record, Genetics, Geology, History, Language, Mathematics, Microbiology, Physics, Prophecy, Psychology, & Worldwide Flood.
