

END TIME PROPHECIES

CAUTION

There are many prophecies about the times of the end of this age recorded throughout the Bible as in Matthew ch. 24, Mark ch.13, Luke ch. 21, 2 Thessalonians ch.2, the book of Revelation and a few other places. Throughout the centuries man has been trying to interpret the meaning of these prophecies. Some people have even incorrectly predicted certain dates (which have come and gone) for the end of time.

So although the authors of these articles are biblical scholars and are providing us with educated speculations, we have to remember that no one truly knows the exact time in which the end will occur or exactly how it will occur. But the Bible does tell us that we, as Christians, are to be aware of the signs and be prepared. The Bible also says that blessed are those who read or hear these revelations of God.

Although I and many others truly believe that the occurrences of today's time indicate that the end of this age is near, we have to be careful how we interpret the prophecies. So as you read these human interpretations of the end time prophecies remember that the prophecies are God's word but these interpretations are man's word and therefore are not proven to be absolutely true.
