

“MAN’S EARLY HISTORY” AUDIO SCRIPT

In this lecture I will be using modern scientific evidence, secular history and history recorded in Genesis Chapters 1-11 in the Holy Bible to explain what I understand to be our true early history. This lecture will take you from the creation of all things in nature through explanations of dinosaurs, the ice age, cavemen, the ark, the world-wide flood, the Tower of Babel and finally to early civilizations around the world.

Many people who were brought up with traditional secular views of our origins and early history will have trouble accepting many of these views. Therefore I strongly recommend that you read the “Creative Views of Science” Audio Script first to get a better understanding of our origins.

TABLE OF CONTENTS

- 1) God’s Unique Creation
- 2) Pre-Flood Conditions
- 3) Noah’s Day
- 4) Post-Flood
- 5) Pre-Babel
- 6) Tower of Babel Incident
- 7) Civilizations Spread
